MyCareerMatch AI

**CHANGING THE WAY STUDENTS ENGAGE
WITH CAREER DISCOVERY PROGRAMS**

Your virtual career assistant

MCM AI helps Careers Advisers deliver exciting and motivational career lessons where students engage in conversation with their personal MyCareerMatch report asking it questions relating to career choice, school subjects, study areas and future employment.

MyCareerMatch AI is your next-generation tool to engage and inspire students, providing them with tailored, career- focused guidance that extends beyond the classroom.

Our story

MyCareerMatch was released in 2010 with over 7 million users. Our beginnings date back to 2000 when we launched Myprofile to assist employers find the right person for job vacancies.

Today we engage with thousands of high schools directly or through university sponsorship.

Career Advisers purchase MyCareerMatch credits based on the number of students in Years 9 – 12 who will access.

MYCAREER
MATCH ●●● AI

Quick accurate and reliable

For Career Advisers the program is easy to run, and there's no limit to the number of students who access at the same time. It takes 6 mins to complete. Students answer an online quiz which determines their personal preferences and matches them to one of 16 MyCareerMatch profiles.

Each profile is different and the careers suggested are based on the likelihood of people with similar personalities being attracted to and finding employment in. Reports are downloaded immediately by the student with a copy emailed to the Career Adviser and to the student.

2. Which describes you

Select the word that best describes each of the drivers:

Decisive and ambitious	Least	Rarely	Often	Most
Dependable and considerate	Least	Rarely	Often	Most
Efficient and organised	Least	Rarely	Often	Most
Impulsive and enthusiastic	Least	Rarely	Often	Most

My Resume

how to write an amazing resume

Study Guide

personal advice on how best to study.

Intro to MCM AI

Supporting Career Advisers

Career education is the most important school subject a school can teach students.

Career Advisers do an amazing job given so many are under-resourced in terms of time, personnel and financial support.

We see MCM AI as an affordable “virtual assistant” where they can reach out and engage personally with every student, creating innovative career lessons not just at school, but beyond the school gate.

MCM AI is your smart career assistant

This innovative tool provides personal career advice based on the students profile. Now students can engage MyCareerMatch with in-depth conversations about everything to do with career choices, school subjects, study courses, qualifications, resumes, job opportunities and personal self-development.

MCM AI delivers advice and suggestions using a private knowledge base designed as a secure and safe AI and ring fenced to protect access relevant ensuring focused guidance. It comes preloaded with prompts to get started or students can ask their own either by text or voice.

This is major breakthrough to support schools so every student leaving will have a future plan about what they'll do and who they want to be.

How to use

To access MCM AI, students must first complete a MyCareerMatch quiz. There's no additional charge to use MCM AI ... it's included in the MyCareerMatch fee.

Once they've complete a MyCareerMatch quiz they are directed to MCM AI to set up a login User-Name and Password.

No email address or personal name is required. When ready to use they upload their MyCareerMatch report and MCM AI is ready to go.

MCM AI is available at any time to continue the conversation or start a new one. Students will be able to access after they have left school.

Providing training and lesson planning

We've prepared information guides for Career Advisers on how to introduce MCM AI and how students get the best out of AI.

MyCareerMatch will run training webinars in May and you'll be invited to attend.

Student instructions will be sent to each school

Welcome to MyCareerMatch - Join Us Today

We welcome you to discover our amazing student career tool for yourself. Each school has their own portal where you view student activity, regenerate lost reports, instantly order reports, have access to our Certification program, change email address and much more.

Changing the Way

STUDENTS CHOOSE A CAREER AND STUDY PATHWAY

MyCareerMatch AI is an intelligent personal career assistant designed to make career exploration personal and engaging.

This innovative solution is a game-changer, setting a new standard for career advice tailored to the unique strengths and aspirations of each and every student.

Students upload their MyCareerMatch report to MCM AI, and engage with it in conversation about themselves, their career choices, school subjects, study courses, resume and employment opportunities.

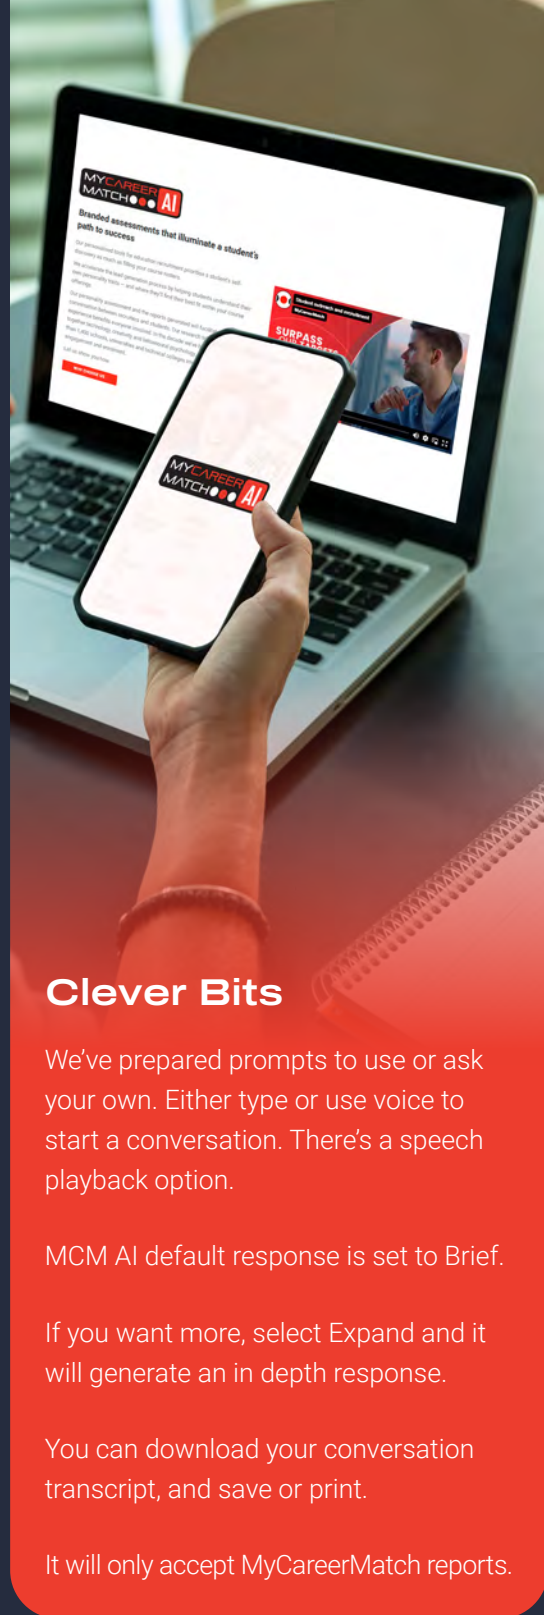

It delivers content based on the students MyCareerMatch report and responds to student prompts and questions using a private knowledge base by text or voice.

This protects the delivery to students from generative AI sources and we ring fence student access to topics relevant to them and their future career.

MCM AI is a private AI App focused entirely on careers, study options and employment in Australia and NZ.

Students can access at any time and continue to have access after they leave school, making MCM AI their future intelligent career assistant.

MCM AI is included in the cost of report credits.

Clever Bits

We've prepared prompts to use or ask your own. Either type or use voice to start a conversation. There's a speech playback option.

MCM AI default response is set to Brief.

If you want more, select Expand and it will generate an in depth response.

You can download your conversation transcript, and save or print.

It will only accept MyCareerMatch reports.
